

The Road to Recovery

Relief Care

Most patients consult our office because they have an ache or a pain. Their goal? Relief. That's our first objective.

A thorough examination reveals areas of spinal dysfunction. Then, we offer a care plan designed to give you the best results in the shortest amount of time.

Visits are frequent during this period of intensive care. Each visit builds on the ones before, so keep your appointments to get the best results.

Decision Time

When you're feeling better you'll have a decision to make. Will you continue with the care necessary to fully heal soft tissues? Or, abandon the investment that you've made so far?

When you continue your care, visits are less frequent, and progress will be less dramatic. If you end your care before fully healing muscles and soft tissues, you can invite a relapse. Whatever your choice, we're here to serve and help support you in your decision.

Wellness Care

Your health affects everything you do and everyone you know. With so many people depending on you, it makes sense to invest in your health.

A program of chiropractic checkups can help you be the loving parent, the responsive spouse, the understanding friend or the dependable employee.

Invest in your health.
You're worth it!
